DETAILED ACTION

1. Claims 17, 19-23, 26, 27, 29, 30 and 77-79 are pending in the instant application.

Response to Amendment

2. The amendments to the claims filed on January 15, 2009 have been fully considered. The objection to claims 23 and 26 have been obviated and are thus hereby withdrawn.

3. The amendments/remarks are not sufficient to overcome the 35 USC 103 rejections (pgs. 3-8, office action dated July 16, 2008). Below is a response to Applicant's remarks.

“ Applicants respectfully traverse. The present invention relates to a process for producing an intraorally rapidly disintegrable tablet. More specifically, the sole independent claim (claim 17) as amended calls for a process that produces intraorally rapidly disintegrable tablets. ”

Applicant's response is noted, however, it is not found to be persuasive. The reference of Lech et al. teaches tableting and oral administration (col. 4, lines 6-8). It is routine experimentation to produce tablets that disintegrate rapidly. The 35 USC 103 rejection is maintained and hereby made FINAL.

4. Applicant's amendment necessitated the new ground of rejection set forth below, Section
- 5.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claim 17 (and dependent claims 19-23, 26, 27, 29, 30 and 77-79) rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claims have been amended to include the limitation “compression-molding.” The production of intraorally rapidly disintegratable tablets by “compression-molding” is not found in the originally filed disclosure. Applicant is invited to show where support is for this limitation. Appropriate correction is requested.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
